### **INVESTMENT SUPERVISORY SERVICES ("ISS") & INDIVIDUAL PORTFOLIO MANAGEMENT**

Our firm provides continuous advice to a client regarding the investment of client funds based on the individual needs of the client. Through personal discussions in which goals and objectives based on a client's particular circumstances are established, we develop a client's personal investment policy and create and manage a portfolio based on that policy. During our data-gathering process, we determine the client's individual objectives, time horizons, risk tolerance, and liquidity needs. As appropriate, we also review and discuss a client's prior investment history, as well as family composition and background.

We manage these advisory accounts on a discretionary basis. Account supervision is guided by the client's stated objectives (i.e., maximum capital appreciation, growth, income, or growth and income), as well as tax considerations. Clients may impose reasonable restrictions on investing in certain securities, types of securities, or industry sectors. For more information on investment discretion see Item 16.

Our investment recommendations are not limited to any specific product or service offered by a broker-dealer or insurance company and will generally include advice regarding the following securities:

- Exchange-listed securities
- Securities traded over-the-counter
- Foreign issuers
- Corporate debt securities (other than commercial paper)
- Commercial paper

- Certificates of deposit
- Municipal securities
- Variable annuities
- Mutual fund shares
- United States governmental securities

Because some types of investments involve certain additional degrees of risk, they will only be implemented/recommended when consistent with the client's stated investment objectives, tolerance for risk, liquidity and suitability.

Clients receiving this service receive a written report which provides the client with a detailed financial plan designed to assist the client achieve his or her financial goals and objectives.

Financial Planning recommendations are not limited to any specific product or service offered by a broker-dealer or insurance company. All recommendations are of a generic nature.

### **INSURANCE**

We may also provide investment management services to individual accounts held inside a 401(k) plan.

### **TAX PLANNING AND PREPARATION**

Tim Rowsey and Chris Bevington are also Certified Public Accountants. Lighthouse Wealth Management offers tax planning for investment clients and prepares individual tax returns for a separate fee.

As disclosed above, certain fees are paid in advance of services provided. Upon termination of any account, any prepaid, unearned fees over the \$50 minimum per quarter fee will be promptly refunded. In calculating a client's reimbursement of fees, we will pro rate the reimbursement according to the number of days remaining in the billing period.

**Mutual Fund Fees:** All fees paid to Lighthouse Wealth Management, Inc. for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds and/or ETFs to their shareholders. These fees and expenses are described in each fund's prospectus. These fees will generally include a management fee, other fund expenses, and a possible distribution fee. If the fund also imposes sales charges, a client may pay an initial or deferred sales charge. A client could invest in a mutual fund directly, without our services. In that case, the client would not receive the services provided by our firm which are designed, among other things, to assist the client in determining which mutual fund or funds are most appropriate to each client's financial condition and objectives. Accordingly, the client should review both the fees charged by the funds and our fees to fully understand the total amount of fees to be paid by the client and to thereby evaluate the advisory

services being provided.

**Wrap Fee Programs and Separately Managed Account Fees:** Lighthouse Wealth Management does not participate in Wrap Fee Programs or Separately Managed Accounts.

**Additional Fees and Expenses:** In addition to our advisory fees, clients are also responsible for the fees and expenses charged by custodians and imposed by broker dealers, including, but not limited to, any transaction charges imposed by a broker dealer with which an independent investment manager effects transactions for the client's account(s). - Individuals (other than high net worth individuals)
- Charitable organizations
- Trusts
- Corporations
- 401(k) plans

## Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

### METHODS OF ANALYSIS

We use the following methods of analysis in formulating our investment advice and/or managing client assets:

**Fundamental Analysis.** We attempt to measure the intrinsic value of a security by looking at economic and financial factors (including the overall economy, industry conditions, and the financial condition and management of the company itself) to determine if the company is under priced (indicating it may be a good time to buy) or overpriced (indicating it may be time to sell).

Fundamental analysis does not attempt to anticipate market movements. This presents a potential risk, as the price of a security can move up or down along with the overall market regardless of the economic and financial factors considered in evaluating the stock.

**Technical Analysis.** We analyze past market movements and apply that analysis to the present in an attempt to

recognize recurring patterns of investor behavior and potentially predict future price movement.

Technical analysis does not consider the underlying financial condition of a company. This presents a risk in that a poorly-managed or financially unsound company may under perform regardless of market movement.

**Risks for all forms of analysis.** Our securities analysis methods rely on the assumption that the companies whose securities we purchase and sell, the rating agencies that review these securities, and other publicly-available sources of information about these securities, are providing accurate and unbiased data. While we are alert to indications that data may be incorrect, there is always a risk that our analysis may be compromised by inaccurate or misleading information.

## **INVESTMENT STRATEGIES**

We use the following strategy(ies) in managing client accounts, provided that such strategy(ies) are appropriate to the needs of the client and consistent with the client's investment objectives, risk tolerance, and time horizons, among other considerations:

**Long-term purchases.** We purchase securities with the idea of holding them in the client's account for a year or longer. Typically we employ this strategy when:

- we believe the securities to be currently undervalued, and/or
- we want exposure to a particular asset class over time, regardless of the current projection for this class.

A risk in a long-term purchase strategy is that by holding the security for this length of time, we may not take advantage of short-term gains that could be profitable to a client. Moreover, if our predictions are incorrect, a security may decline sharply in value before we make the decision to sell.

**Short-term purchases.** When utilizing this strategy, we purchase securities with the idea of selling them within a relatively short time (typically a year or less). We do this in an attempt to take advantage of conditions that we believe will soon result in a price swing in the securities we purchase.

**Margin transactions.** Upon request we can purchase stocks for your portfolio with money borrowed from your brokerage account. This allows you to purchase more stock than you would be able to with your available cash, and allows us to purchase stock without selling other holdings.

**Risk of Loss.** Securities investments are not guaranteed and you may lose money on your investments. We ask that you work with us to help us understand your tolerance for risk.

## **Item 9 Disciplinary Information**

We are required to disclose any legal or disciplinary events that are material to a client's or prospective client's evaluation of our advisory business or the integrity of our management.

Our firm and our management personnel have no reportable disciplinary events to disclose.

## **Item 10 Other Financial Industry Activities and Affiliations**

There are no other business activities or affiliations to disclose.

## **Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading**

Our firm has adopted a Code of Ethics which sets forth high ethical standards of business conduct that we require of our employees, including compliance with applicable federal securities laws.

Lighthouse Wealth Management, Inc. and our personnel owe a duty of loyalty, fairness and good faith towards our clients, and have an obligation to adhere not only to the specific provisions of the Code of Ethics but to the general principles that guide the Code.

Our Code of Ethics includes policies and procedures for the review of quarterly securities transactions reports as well as initial and annual securities holdings reports that must be submitted by the firm's access persons. Among other things, our Code of Ethics also requires the prior approval of any acquisition of securities in a limited offering (e.g., private placement) or an initial public offering. Our code also provides for oversight, enforcement and recordkeeping provisions.

Lighthouse Wealth Management, Inc.'s Code of Ethics further includes the firm's policy prohibiting the use of material non-public information. While we do not believe that we have any particular access to non-public information, all employees are reminded that such information may not be used in a personal or professional capacity.

A copy of our Code of Ethics is available to our advisory clients and prospective clients. You may request a copy by email sent to [csmeltzer@lightwealth.com](mailto:csmeltzer@lightwealth.com), or by calling us at 419-496-0016.

Lighthouse Wealth Management, Inc. and individuals associated with our firm are prohibited from engaging in principal transactions.

Lighthouse Wealth Management, Inc. and individuals associated with our firm are prohibited from engaging in agency cross transactions.

Our Code of Ethics is designed to assure that the personal securities transactions, activities and interests of our employees will not interfere with (i) making decisions in the best interest of advisory clients and (ii) implementing such decisions while, at the same time, allowing employees to invest for their own accounts.

Our firm and/or individuals associated with our firm may buy or sell for their personal accounts securities identical to or different from those recommended to our clients. In addition, any related person(s) may have an interest or position in a certain security(ies) which may also be recommended to a client.

It is the expressed policy of our firm that no person employed by us may purchase or sell any security prior to a transaction(s) being implemented for an advisory account, thereby preventing such employee(s) from benefiting from transactions placed on behalf of advisory accounts.

We may aggregate our employee trades with client transactions where possible and when compliant with our duty to seek best execution for our clients. In these instances, participating clients will receive an average share price and transaction costs will be shared equally and on a pro-rata basis. In the instances where there is a partial fill of a particular batched order, we will allocate all purchases pro-rata, with each account paying the average price. Our employee accounts will be included in the pro-rata allocation.

As these situations represent actual or potential conflicts of interest to our clients, we have established the following policies and procedures for implementing our firm's Code of Ethics, to ensure our firm complies with its regulatory obligations and provides our clients and potential clients with full and fair disclosure of such conflicts of interest:

1. No principal or employee of our firm may put his or her own interest above the interest of an advisory client.
2. No principal or employee of our firm may buy or sell securities for their personal portfolio(s) where their decision is a result of information received as a result of his or her employment unless the information is also available to the investing public.
3. It is the expressed policy of our firm that no person employed by us may purchase or sell any security prior to a transaction(s) being implemented for an advisory account. This prevents such employees from benefiting from transactions placed on behalf of advisory accounts.
4. Our firm requires prior approval for any IPO or private placement investments by related persons of the firm.
5. We maintain a list of all reportable securities holdings for our firm and anyone associated with this advisory practice that has access to advisory recommendations ("access person"). These holdings are reviewed on a regular basis by our firm's Chief Compliance Officer or his designee.
6. We have established procedures for the maintenance of all required books and records.

7. Clients can decline to implement any advice rendered, except in situations where our firm is granted discretionary authority.
8. All of our principals and employees must act in accordance with all applicable Federal and State regulations governing registered investment advisory practices.
9. We require delivery and acknowledgement of the Code of Ethics by each supervised person of our firm.
10. We have established policies requiring the reporting of Code of Ethics violations to our senior management.
11. Any individual who violates any of the above restrictions may be subject to termination.

## **Item 12 Brokerage Practices**

Lighthouse Wealth Management, Inc. directs that clients establish brokerage accounts with Charles Schwab & Co. ("Schwab"), a FINRA registered broker-dealer, member SIPC, to maintain custody of clients' assets and to effect trades for their accounts. We have evaluated Schwab and believe that they will provide our clients with a blend of execution services, commission costs and professionalism that will assist our firm to meet our fiduciary obligations to clients. However, it is necessary to disclose that by directing clients to use Charles Schwab, it is possible that we might not always be able to achieve best execution in client accounts, and it is possible that in certain situations this practice may cost clients more money.

Lighthouse Wealth Management, Inc. is independently owned and operated and not affiliated with Schwab. Schwab provides Lighthouse Wealth Management, Inc. with access to its institutional trading and custody services, which are typically not available to Schwab retail investors. These services generally are available to independent investment advisers on an unsolicited basis, at no charge to them so long as a total of at least \$10 million of the adviser's clients' assets are maintained in accounts at Schwab Institutional. These services are not contingent upon our firm committing to Schwab any specific amount of business (assets in custody or trading commissions). Schwab's brokerage services include the execution of securities transactions, custody, research, and access to mutual funds and other investments that are otherwise generally available only to institutional investors or would require a significantly higher minimum initial investment.

Schwab Institutional also makes available to our firm other products and services that benefit Lighthouse Wealth Management, Inc. but may not directly benefit our clients' accounts. Many of these products and services may be used to service all or some substantial number of our client accounts, including accounts not maintained at Schwab.

Schwab's products and services that assist us in managing and administering our clients' accounts include software and other technology that

- i. provide access to client account data (such as trade confirmations and account statements);
- ii. facilitate trade execution;
- iii. provide research, pricing and other market data;
- iv. facilitate payment of our fees from clients' accounts; and
- v. assist with back-office functions, recordkeeping and client reporting.

Schwab Institutional also offers other services intended to help us manage and further develop our business enterprise. These services may include:

- i. compliance, legal and business consulting;
- ii. publications and conferences on practice management and business succession; and
- iii. access to employee benefits providers, human capital consultants and insurance providers.

Schwab Institutional may discount or waive fees it would otherwise charge for some of these services or pay all or a

part of the fees of a third-party providing these services to our firm. Schwab Institutional may also provide other benefits such as educational events or occasional business entertainment of our personnel. In evaluating whether to recommend or require that clients custody their assets at Schwab, we may take into account the availability of some of the foregoing products and services and other arrangements as part of the total mix of factors we consider and not solely on the nature, cost or quality of custody and brokerage services provided by Schwab, which may create a potential conflict of interest.

As a matter of policy and practice, Lighthouse Wealth Management, Inc. does not generally block client trades. Since we use primarily mutual funds and exchange traded funds block trading provides no advantage to our clients. Therefore, we implement client transactions separately for each account. Consequently, in the few instances that we do use individual stocks, certain client trades may be executed before others, at a different price and/or commission rate. Additionally, our clients who purchase individual stocks may not receive volume discounts available to advisers who block client trades.

## **Item 13 Review of Accounts**

### **INVESTMENT SUPERVISORY SERVICES ("ISS") & INDIVIDUAL PORTFOLIO MANAGEMENT**

**REVIEWS:** While the underlying securities within client's accounts are continually monitored, these accounts are reviewed at least quarterly. Accounts are reviewed in the context of each client's stated investment objectives and guidelines. More frequent reviews may be triggered by material changes in variables such as the client's individual circumstances, the market, or political or economic environment.

These accounts are reviewed by Tim Rowsey and Greg Emmons.

**REPORTS:** In addition to the monthly statements and confirmations of transactions that clients receive from their broker-dealer, we provide quarterly reports summarizing account performance, balances and holdings.

### **FINANCIAL PLANNING SERVICES**

**REVIEWS:** While reviews may occur at different stages, typically no formal reviews will be conducted for Financial Planning clients unless requested by the client.

**REPORTS:** Financial Planning clients will receive a completed financial plan.

## **Item 14 Client Referrals and Other Compensation**

It is Lighthouse Wealth Management, Inc.'s policy not to engage solicitors or to pay related or non-related persons for referring potential clients to our firm.

It is Lighthouse Wealth Management, Inc.'s policy not to accept or allow our related persons to accept any form of compensation, including cash, sales awards or other prizes, from a non-client in conjunction with the advisory services we provide to our clients.

## **Item 15 Custody**

As a matter of policy and practice, Lighthouse Wealth Management does not maintain custody of advisory client funds, securities, or assets. We have custody limited only to the direct deduction of fees from client accounts. However, we do have two exceptions to this policy. Due to special circumstances, Tim Rowsey serves as the financial POA and trustee for one client and we provide bill paying services for her, and Tim and Greg Emmons serve as trustees for another couple's trust. We undergo a surprise annual audit from an outside firm and disclose and report these relationships, as required.

## **Item 16 Investment Discretion**

Clients hire us to provide discretionary asset management services. This means we may place trades in a client's account without contacting the client prior to each trade to obtain the client's permission. This allows us to react to the market and make changes that are the client's best interest more quickly and efficiently.

Our discretionary authority includes the ability to do the following without contacting the client:

- determine the security to buy or sell; and/or
- determine the amount of the security to buy or sell

Clients give us discretionary authority when they sign an investment advisory agreement with our firm.

## **Item 17 Voting Client Securities**

As a matter of firm policy, we do not vote proxies on behalf of clients. Therefore, although our firm may provide investment advisory services relative to client investment assets, clients maintain exclusive responsibility for: (1) directing the manner in which proxies solicited by issuers of securities beneficially owned by the client shall be voted, and (2) making all elections relative to any mergers, acquisitions, tender offers, bankruptcy proceedings or other type events pertaining to the client's investment assets. Clients are responsible for instructing each custodian of the assets, to forward to the client copies of all proxies and shareholder communications relating to the client's investment assets.

We may provide clients with consulting assistance regarding proxy issues if they contact us with questions at our principal place of business.

## **Item 18 Financial Information**

As an advisory firm that may maintain discretionary authority for client accounts, or is deemed to have custody, we are also required to disclose any financial condition that is reasonably likely to impair our ability to meet our contractual obligations. Lighthouse Wealth Management, Inc. has no additional financial circumstances to report.

Under no circumstances do we require or solicit payment of fees in excess of \$1200 per client more than six months in advance of services rendered. Therefore, we are not required to include a financial statement.

Lighthouse Wealth Management, Inc. has never been the subject of a bankruptcy petition at any time.

The CFP® designation is one of the most prestigious financial certificates a financial advisor can obtain and indicates a level of competence to insure the individual can provide an honest fiduciary benefit to their clients.

#### **Investment Advisor Representative**

Greg passed the Financial Industry Regulatory Authority (FINRA) Series 7 and 66 exams. Providing investment advisory service and financial planning is Greg's primary business.

Greg is licensed to sell the following types of insurance in the state of Ohio: Accident & Health, Life, and Variable Annuities.

To obtain a license to sell insurance in Ohio, Ohio resident applicants must complete pre-licensing education from an approved pre-license provider for each of the above-mentioned lines of authority (i.e. types of insurance). The educational requirements may be met by either completing a 20-hour classroom course or successfully completing an approved self-study course. They must then pass an Ohio Department of Insurance exam within 180 days of completion of the courses.
